A new year, A new vaccine!

Each year from November to April a combination of viruses cause the flu. The flu is spread from person to person by coughing and sneezing. It can be prevented by getting the yearly flu vaccine.

Who should get the Seasonal flu vaccine?

- People who are 50 years or older
- Children aged 6 months thru 18 years
- Pregnant women
- Persons of any age with certain chronic medical conditions
- Persons who are household contacts of people at risk
- Health care workers
- Flu mist available for healthy 2-49 year olds
